# About Us

Annai Trust is a non-profit organization that has been dedicated to serving underprivileged communities for the past 14 years. Our mission is to uplift and empower marginalized groups by focusing on key areas such as health, education, community empowerment, and disaster relief. Through our holistic approach, we aim to rebuild lives, foster self-sufficiency, and promote sustainable development.

A significant part of our work is devoted to the care and well-being of children. Our children's home provides a safe, nurturing, and growth-oriented environment where children are encouraged to develop life skills, access quality education, and build positive behavioural traits. Our ultimate goal is to ensure

that no child is left to live in poverty, but instead is guided toward a future of dignity, independence, and opportunity.

Annai Trust has remained committed to creating lasting change in the lives of vulnerable communities. We continue to strengthen our impact by fostering partnerships, promoting social equity and empowering individuals to lead better lives.

Some people fall prey to the anti-nationalists' snares. These kids grow up to be juvenile offenders. Later, they develop into criminals who carry out crimes. particularly boys, to set up a home for the children who require care and protection, who have lost their mother, father, or both due to fatal diseases like Corona, various accidents, and domestic violence, and to provide them with basic needs like food, clothing, hygiene, and protection.

Numerous youngsters have benefited from its numerous good deeds, including many rural students. Due to their poverty and lack of access to fundamental rights like food, clothes, shelter, education security, maintenance, etc., the majority of children who have lost one or both of their parents for a variety of reasons and who are ignored by their parents end up working as youngsters in the current circumstances. Some kids develop drug addictions.

## **VISION**

To create a society where every child is nurtured, protected, and empowered to achieve their full potential, fostering a future of equality, dignity, and opportunity for all in a society.

## **MISSION**

To provide a safe, nurturing, and inclusive environment for children in need, ensuring their access to education, healthcare, and emotional well-being. We strive to empower them with life skills and values, enabling them to become self-reliant and responsible citizens.

# AZOLLA PROJECT

In the Keezh Arungunam and Natham villages of the Annagramam Panchayat Union, a program was initiated to provide nutrition to livestock—such as goats, cows, and chickens—which significantly support the economic well-being of farmers, while simultaneously reducing the cost of animal feed.

Farmers in these villages have been able to cut down on expenses for traditional feeds like bran, oil cake, and commercial poultry feed by cultivating and harvesting Azolla in a simple manner and using it as a supplemental feed for their livestock.

This initiative started with raising awareness among farmers about Azolla cultivation. The program, which began in February 2021, continues to be implemented successfully to this day.

*Azolla Cultivation - Neighbouring Village*

Through this initiative, explanatory sessions on Azolla cultivation were conducted for farmers in the neighboring villages. Furthermore, a large number of farmers receive Azolla culture (or seed) for free. Consultation and advice on Azolla cultivation are also provided to interested farmers.

# OUTREACH ACTIVITIES

## FIRST - AID AWARENESS

The core objective of the one-day program was to empower individuals with essential life-saving skills needed during crises. The training focused specifically on:

- **Natural Disasters and Emergencies:** Providing aid to victims during unforeseen events like floods, storms, or other large-scale accidents.
- **Accident Victims:** Immediate and effective first response for individuals injured in traffic accidents or other common mishaps.
- **Basic Life Support (BLS):** Practical demonstrations of techniques like CPR (Cardiopulmonary Resuscitation) and controlling severe bleeding.

The aim was to foster a community of proactive first responders who could stabilize a victim before professional medical help arrives, thereby significantly increasing the chances of survival and recovery.

The importance of the initiative was highlighted by the presence of key figures:

- The program was formally launched by the Founder of TKY Health Care Consultancy, who likely emphasized the crucial role of immediate aid in saving lives.
- The attendance and address by the Neyveli Police Inspector underscored the administration's support for public safety and a emergency preparedness, validating the program's significance.
